Subject: Engagement, outreach and education "text box" for PRP
Engagement, outreach, education text box - Aug 4.docx

Here's a very rough draft of a piece that can be inserted into the PRP that summarizes engagement, outreach and education efforts – I think I talked about this w/ Jamie / or on the last staff call. Was thinking this could be inserted somewhere upfront near the intro. It would (in one spot) summarize these efforts rather than someone (or the IJC) combing through the entire report. There's some intro text and then the table which summarizes these efforts found in the PRP and then a section where we can highlight domestic stuff, which may / may not be in the PRP. The text in the table is high-level and was thinking we can either point to the PRP pg's which describe these efforts / websites instead of summarizing the detail in the table. This is already getting lengthy and I'm not done. We can talk about this today.
